EpiOtic EasOtic

Clean and treat

with the Virbac **otic range**

Shaping the future of animal health

Virbac

Cleanse
with EpiOtic®

Use EpiOtic® for

- **Routine cleansing - to remove ear wax and debris**
- **Easier examination - cleans away dirt to see more clearly**
- **Maintain ear hygiene - in predisposed breeds or dogs with a history of ear problems**

Maintain ear health using EpiOtic®

Easy to use & short nozzle

- Available in 2 size bottles - 60ml & 125ml

Gentle & soothing

- Neutral pH for optimal tolerance
- For dogs, cats, kittens and puppies
- Alcohol and fragrance free

Anti-odour

- Neutralises unpleasant smells

S-I-S Technology

- Contains Virbac's Defensin™ and Glycotechnology™ which reduces microbial adherence[1, 2] and helps to maintain the skin's natural microbial defence.[3, 4]

Cleansing & drying

- Enables the removal of dirt and excessive wax

Treat
with EasOtic®

95%
owner satisfaction with EasOtic®[5]

Potent steroid
HCA is fast acting to reduce inflammation with minimal systemic absorption. The same steroid as Cortavance!

Long acting
Gentamicin and miconazole are active in the ear for 15 days above MIC90

Otitis treatment made simple using EasOtic®

Flexible nozzle
Reaches the affected area using a gentle, atraumatic nozzle

Airless bottle
Prevents retro-contamination and delivers accurate dosing at any angle, even upside down!

Easy dosing
Exact 1ml dose in 1 press, once a day for only 5 days

Formulated for fast effective treatment

Award winning packaging[6]

The steroid - HCA (Hydrocortisone aceponate)
- Fast action with an excellent safety profile[7]
- Rapid relief of inflammation with minimal systemic absorption[8]
- Metabolised in the epidermis
- Equivalent potency to betamethasone[9]

The anti-fungal - Miconazole
- A potent anti-fungal and bactericide against gram-positive organisms
- Minimal resistance[10] and an excellent safety profile[11]

The anti-microbial - Gentamicin
- For first-line use gentamicin is broad spectrum with minimal risk of resistance[12]
- Excellent safety profile that is documented in numerous studies[13]
- Shown not to cause ototoxicity even when instilled directly into the middle ear of dogs[14]
- Activity against a range of gram-positive and gram-negative bacteria including Pseudomonas spp[15, 16]

Easy
with just one pump

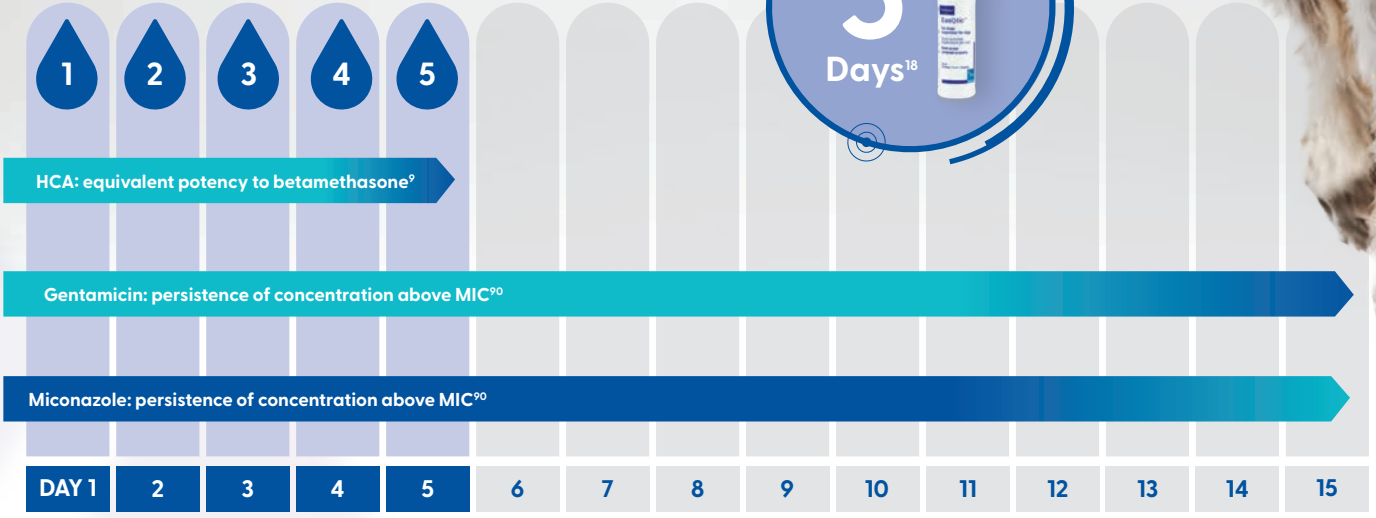
20%
of dogs are troubled by otitis[17]

Just one pump in each ear, once a day for 5 days

One bottle provides a full treatment course for all sizes of dog, with no wastage

As a dermatologist working in two busy referral centres, and regularly seeing cases of canine otitis, I have found EasOtic® revolutionary in terms of providing the game-changing combination of a superior delivery method that allows complete owner compliance and a once daily dosing regime with an excellent combination of polypharmacy active ingredients in the form of HCA, gentamicin and miconazole.

Sarah Warren BVetMed MSc (Clin. Onc.) CertVD MRCVS, Advanced Practitioner in Veterinary Dermatology.



Break
the cycle of reinfection

Factors that can cause otitis externa

1 Predisposing
- Ear canal conformation
- Swimming
- Environmental conditions

2 Primary
- Hypersensitivity disease (atopy, food, contact)
- Parasites/Foreign bodies
- Systemic disease

3 Secondary & Perpetuating
- Infection - Bacteria (Gram +ve & -ve) - Yeasts
- Inflammation
- Otitis media
- Incorrect initial treatment and lack of on going maintenance
- Proliferative changes

Beat the cycle and improve compliance with...

EasOtic

Don't guess
Consistent dosing every time with each administration

One press
1ml dose

No mess
Effective application at any angle, precise ergonomic nozzle

Less stress
Reduced frequency and duration of treatment (only 5 days), easier for owners and pets

1 bottle
1 treatment course

Increased compliance
Compared to twice daily drops treatment[19]
